DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 3, and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by US Patent 4613015 to Skrzypek.

Skrzypek shows in figures 2 and 5 a hybrid vehicle slip stop device comprising a plurality of different types of slip stop means for preventing slip of the vehicle by increasing the frictional resistance relative to a road surface on which the vehicle is traveling, wherein each of the plurality of different types of slip stop means performs the function of preventing slip of the vehicle by itself and independently of the other slip stop means. Examiner has interpreted the pressurized plates 46 on the individual wheels as being independent slip stop means. With regards to claim 3, Examiner notes that the stopping resulting from one wheel provides stopping on the other wheels.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3683

4. Claims 2, 5, 6, 7, 9, 11, 12, 13, 14, 16, 17, 18, and 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Skrzypek in view of JP-9193604 (JP'604).

Skrzypek lacks the limitation of the road surface detecting means and the controller.

JP'604 teaches the road surface detecting means or sensors shown in 1 and the controller 30.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to have modified the means of actuating the slip stop means to have included detecting means and a controller to replace the manual slip stop triggering means with an automatic step to avoid relying human determination.

With regards to claim 6, Examiner notes that the material of the slip preventive material dispenser is the pressurized fluid in one of the stop means on one of the wheels, as broadly recited.

With regards to claim 13, the movable plate is shown at element 46 in figure 2.

Allowable Subject Matter

5. Claims 8, 10, and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

6. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
